History

#1 - 02/06/2019 09:30 am - Etienne Pallier

- Parent task changed from #6678 to #6713

#2 - 02/06/2019 09:32 am - Etienne Pallier

- Subject changed from ((T)) Script install.py refactorisation et simplification to ((T)) Installation script (install.py) : refactorisation et simplification

#3 - 02/06/2019 08:17 pm - Etienne Pallier

(EP 5/2/19) ./install.py update : remettre en place

OLD => C'était utilisé dans install_old.py (JB) : update faisait seulement "pyros.py init_database", ce qui faisait :

Update DB : makemigrations + migrate

loaddata() : chargement de la fixture initiale src/misc/fixtures/initial_fixture.json

NEW => il faudrait refaire ça (maybe sans le loaddata() ? mais c'est peut-être utile à garder...)

Update DOC : une section UPDATE qui dit : pour se mettre à jour, faire :

1) git pull

2) pyros2 update (qui appellera "install.py update" qui appellera init_database)
